Services (Sri Lanka) (Private) Limited (AASL)
(Jaffna International Airport (JIA) and Colombo International
Airport (CIAR))***

POST OF AIRCRAFT TECHNICIAN

Job Scope : To perform Aircraft Marshaling function and to provide basic Aircraft line maintenance and basic technical support to customer Airlines, under the direction and advice of the customer Airline's authorized Engineer /AME , ensuring assigned maintenance and servicing activities are carried out safely, efficiently, and in accordance with applicable maintenance procedures, regulations and Airport & Aviation Service (Sri Lanka) (Private) Ltd requirements. Directly reporting to the Ground Handling Superintendent – Ramp Operations.

- Key Responsibilities :**
- i Perform Aircraft Marshaling to guide pilots safely during taxi, turn, stop, engine shutdown, and parking, ensuring precise alignment with parking stands or runways.
 - ii Conduct Foreign Object Debris (FOD) inspection at every Aircraft gate and hard standing position prior to each flight arrival and departure to ensure a safe operating environment.
 - iii Refuel the aircraft with correct fuel type according to company procedures and customer airline guidelines to enable timely and safe continuation of flight operations.
 - iv Coordinate maintenance and operational activities efficiently and safely without interruptions by using hands free communication headsets.
 - v Conduct pre-flight and post flight inspections following specified schedules and procedures, checking control surfaces, fluid, levels, tires, brakes, and other critical aircraft components to ensure airworthiness.
 - vi Identify, troubleshoot, and resolve technical issues or malfunctions in the aircraft systems, engines, avionics, and other components during line maintenance, including repairing or replacing faulty parts and performing functional tests under the supervision of customer airline's ground engineer.

- vii Adhere to safety protocols to safe guard personal safety, aircraft, crew, and passengers, including proper use of protective equipment, lockout/tag out procedures, and electrical safety measures.
- viii Maintain effective communication with maintenance personnel, flight crews, and other stakeholders, to report findings, coordinate repairs, and provide updates on aircraft readiness.
- xi Ensure that Aircrafts are properly maintained, safe to operate, and fully compliant with regulatory and operational standards to support safe and efficient flight operations
- x Perform any additional duties assigned by supervisory officers in line with operational requirements.
